

Hamilton Catch-Up English – How It Works

Writing

1. Writing Tasks

There are 6 writing tasks per year group from Y1 to Y6. These involve a choice of text-types and genres but in general will be designed to **stimulate** children to write.

2. Guidance for Marking and Feedback

Guidance on marking each writing task is provided. Use the specifically tailored whole-class marking sheet. As you read each child's work, collate the information gained to build up a picture of the whole class. This enables realistic forward planning for next steps.

3. Follow-Up Responses

Brief, but highly-targeted individual feedback to each child is suggested alongside some illustrative examples. The information gathered on the Whole-Class Marking sheet is used to plan the next steps for the class as a whole and for particular groups. Links to materials are supplied alongside the guidance.
